Note from e-loue.com: Standard Contract

The present contract is a standard contract the e-loue provides for the Owner and the Borrower when renting an Item. However, it is not compulsory to sign a contract when renting an Item, but having a signed contract formalizes the rental agreement in case of dispute.

The present contract is provided by default when renting an Item. Downloading one's own contract remains possible insofar as it is a legal contract and it includes all the terms and conditions set up by the involved parties. It is therefore possible to find other rental contract samples on specialized sites, by doing a search on Google.
